The cleanest job around

Any job. Any size.

S.W.P.P.s - Storm Water Pollution Prevention Planning

Recently the DAQM assumed the inspection of construction sites for Storm Water Pollution Prevention Program (S.W.P.P.P.) violations for dust and other fugitive emissions. Dust Busters also has a S.W.P.P.P. division, and air quality and S.W.P.P.P. problems often cross over or connect, Our Dust Monitors can also keep those of our clients who utilize or expertise in both areas apprised of the potential for S.W.P.P.P. violations on their jobsites.

Weekly Maintenance and Much More.
Emergency Service Available

The Cleanest Job Around.

Dust Monitoring

Dust Busters is a company known for “getting the job done.” We have also built a reputation for our ability to keep jobsites compliant with Clark County Department of Air Quality Management (DAQM) regulations governing construction activities. We work hard to build and help to maintain a rapport between our client and the DAQM Control officers who inspect their jobsites. This relationship has proven to be invaluable, even lucrative for our clients.

Our Dust Monitors have all been certified for Dust Monitoring and Visual Emissions from Clark County DAQM, and have met further company required qualifications such as previous construction experience and some even have backgrounds as inspectors on pipeline fiber optic builds. The scope of work our monitors are able to provide our clients is fairly extensive, as most are familiar with and/or are certified in various areas of environmental protection. Having this knowledge and experience enables our monitors to protect our clients from fines and costly shutdowns.

Recently the DAQM assumed the inspection of construction sites for Storm Water Pollution Prevention Program (S.W.P.P.P.) violations for dust and other fugitive emissions. Dust Busters also has a S.W.P.P.P. division, and air quality and S.W.P.P.P. problems often cross over or connect, Our Dust Monitors can also keep those of our clients who utilize or expertise in both areas apprised of the potential for S.W.P.P.P. violations on their jobsites..
